

OUR PRODUCT

ACROWELL LIFECARE

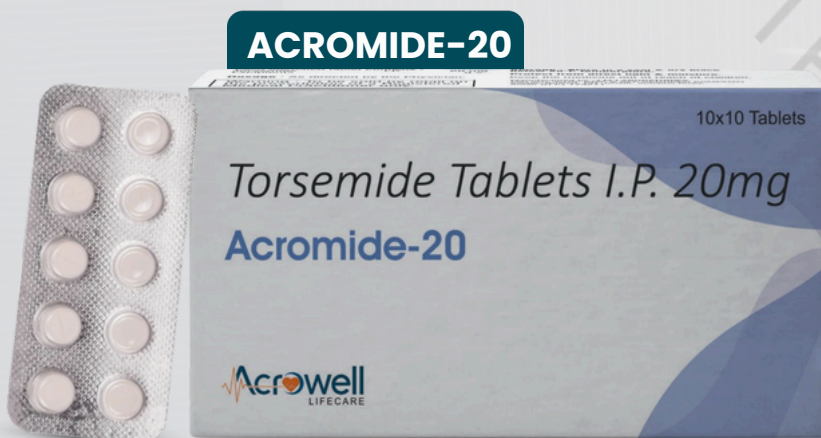

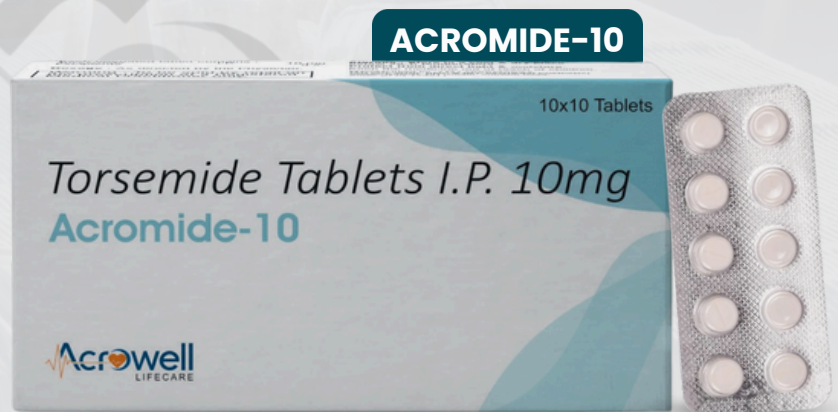

TORSEMIDE

Acromide works by increasing the excretion of water and salt from the body through urine. This helps to reduce fluid buildup in conditions like:

Edema (Swelling): Caused by congestive heart failure, kidney disease, or liver disease.

Hypertension (High Blood Pressure): By reducing fluid volume, Acromide helps lower blood pressure.

MRP
Rs. 780/-
PACKING
10 X 10 Blister

MRP
Rs. 1180/-
PACKING
10 X 10 Blister

ACRONIB-5

TOFACITINIB

YOUR KEY TO IMMUNE RESPONSE MODULATION

Tofacitinib, the active ingredient in Acronib-5, inhibits **Janus kinases (JAKs)**, **enzymes** that play a key role in immune cell signaling and inflammation. By blocking JAK pathways, Tofacitinib helps **regulate the immune response** and **reduce inflammation**. This mechanism is useful in treating various conditions, including **certain types of arthritis**.

MRP
Rs. 3280/-
PACKING
10X10 Blister

MRP
Rs. 680/-
PACKING
10 X 10 Alu-Alu

CILNIDIPINE

Cilnidipine, the active ingredient in Acropine-10, blocks calcium channels in blood vessels and heart muscles. This action relaxes and widens blood vessels, allowing blood to flow more easily and reducing the workload on the heart and helps manage:

- **Hypertension (High Blood Pressure)**
- **Angina (Chest Pain)**
- **Coronary Artery Disease**

MRP
Rs. 880/-
PACKING
10 X 10 Alu-Alu

MRP
Rs. 1180/-
PACKING
10 X 10 Alu-Alu

TELMISARTAN

Telmisartan blocks the action of **angiotensin II**, a hormone that narrows blood vessels. This blocking action allows blood vessels to relax and widen, making it easier for blood to flow and reducing blood pressure.

ACROTAN-AM

MRP
Rs. 1240/-
PACKING
10 X 15 Alu-Alu

It helps in managing helps manage:

- Hypertension (High Blood Pressure)
- Diabetic Nephropathy (Kidney damage in people with diabetes)
- Reducing the risk of stroke in high-risk patients

ACROTAN-HT40

MRP
Rs. 1240/-
PACKING
10 X 15 Alu-Alu

ACROTAN-40

MRP
Rs. 1130/-
PACKING
10 X 15 Alu-Alu

THYROXIN

Thyroxine (T4) is a vital hormone naturally produced by the **thyroid gland**. It plays a crucial role in regulating various bodily functions, including:

- **Metabolism**
- **Growth and Development**
- **Brain Function**
- **Heart Health**

ACROXIN 25

MRP

Rs. 188/-

PACKING

120 Tablets

ACROXIN 50

MRP

Rs. 135/-

PACKING

120 Tablets

ACROXIN 100

MRP

Rs. 175/-

PACKING

120 Tablets

ACROVILD-M500

VILDAGLIPTIN AND METFORMIN HYDROCHLORIDE

A **dipeptidyl peptidase-4 (DPP-4) inhibitor** that increases insulin release and **reduces glucagon**

secretion, helping to lower blood sugar levels. The combination of Vildagliptin and Metformin has a **low risk of causing hypoglycemia (low blood sugar)**, making it a safe and effective option for many patients.

MRP

Rs. 3750/-

PACKING

10X15 Alu Alu

AMLODIPINE

Amlodipine works by blocking calcium channels in the heart and blood vessels. This action relaxes and widens blood vessels, leading to lower blood pressure and improved blood flow. It is commonly prescribed to treat:

- **Hypertension (High Blood Pressure).**
- **Angina (Chest Pain)**
- **Coronary Artery Disease (CAD)**

MRP
Rs. 280/-
PACKING
10 X 10 Alu Alu

MRP
Rs. 880/-
PACKING
10 X 10 Alu Alu

ATORVASTATIN

ATOROSEP-A

MRP
Rs. 980/-
PACKING
10 X 15 Alu-Alu

A statin that effectively lowers **"bad" cholesterol (LDL)** and **triglycerides**, while raising **"good" cholesterol (HDL)**. This helps prevent plaque buildup in your arteries, reducing the risk of heart attack and stroke.

ATOROSEP-10

MRP
Rs. 829/-
PACKING
10 X 15 Alu-Alu

ATOROSEP-20

MRP
Rs. 2110/-
PACKING
10 X 15 Alu-Alu

GLIMEPIRIDE, PIOGLITAZONE & METFORMIN

THE TRIPLE COMBINATION FOR ADVANCED BLOOD SUGAR CONTROL

MRP
Rs. 1040/-
PACKING
10 X 15 Blister

GLIMETAWELL-GP1

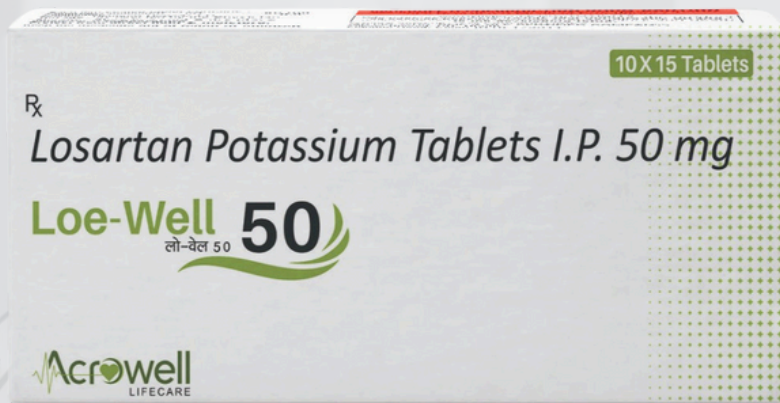

Glimetawell combines three powerful **antidiabetic medications** in a single tablet to provide comprehensive blood sugar management for individuals with **type 2 diabetes**:

- **Glimepiride 1mg**: A sulfonylurea that stimulates insulin release from the pancreas.
- **Pioglitazone 15mg**: A thiazolidinedione that improves insulin sensitivity in muscle and fat cells.
- **Metformin Hydrochloride 500mg (Extended Release)**: A biguanide that reduces glucose production in the liver and improves insulin sensitivity.

MRP
Rs. 1340/-
PACKING
10 X 15 Blister

GLIMETAWELL-GP2

Losartan, the active ingredient in **Loe-Well 50**, blocks the action of **angiotensin II**, a hormone that constricts blood vessels. This blocking action **allows blood vessels to relax and widen**, making it easier for blood to flow and **reducing blood pressure**.

LOE-WELL 50

MRP

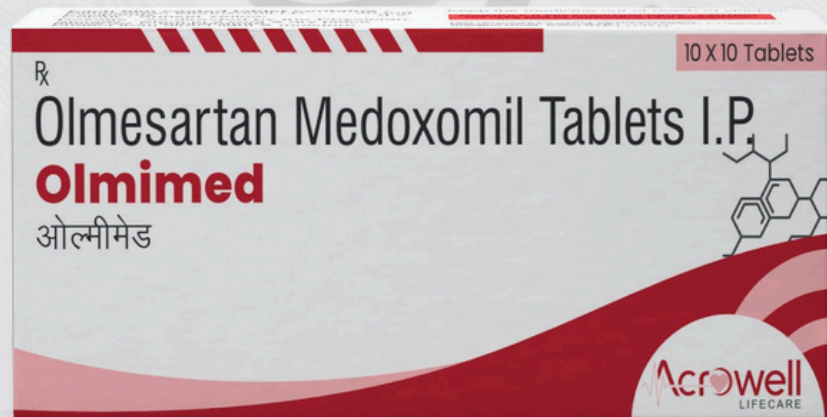

Rs. 1480/-

PACKING

10 X 15 Alu Alu

Olmimed, featuring **Olmesartan Medoxomil**, is an **angiotensin II receptor blocker (ARB)** specifically designed to help manage high blood pressure (hypertension).

MRP

Rs. 880/-

PACKING

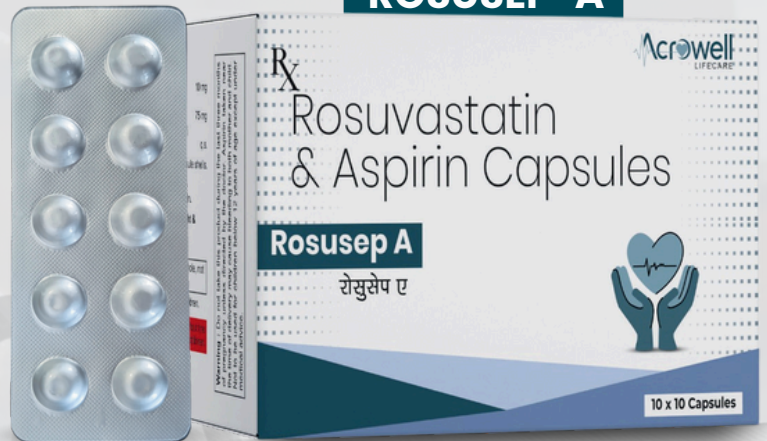

10 X 10 Alu Alu

OLMIMED

ROSUVASTATIN

ROSUSEP-A

MRP
Rs. 1180/-
PACKING
10 X 10 Alu-Alu

Who Can Benefit from Rosusep?

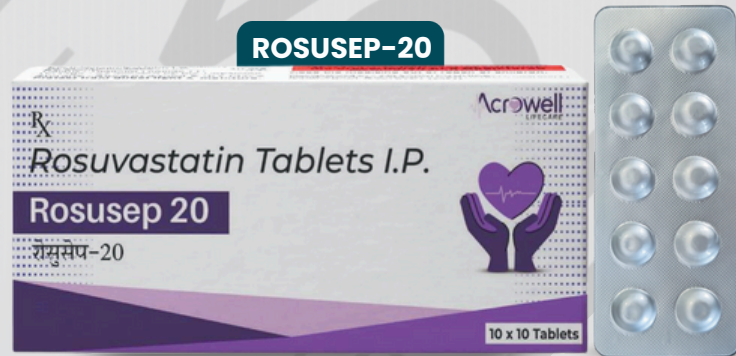

- Individuals with high cholesterol levels who have not responded well to lifestyle changes.
- People with a family history of heart disease or other risk factors for cardiovascular disease.
- Individuals with diabetes who are at risk of developing kidney disease.

ROSUSEP-10

MRP
Rs. 980/-
PACKING
10 X 10 Alu-Alu

ROSUSEP-20

MRP
Rs. 1480/-
PACKING
10 X 10 Alu-Alu

ROSUVASTATIN GOLD

THE TRIPLE-ACTION CARDIOPROTECTIVE POWERHOUSE

MRP
Rs. 1880/-
PACKING
10 X 10 Alu Alu

ROSUSEP GOLD 10

Rosusep-Gold combines three powerful medications in a single capsule to provide comprehensive cardiovascular protection:

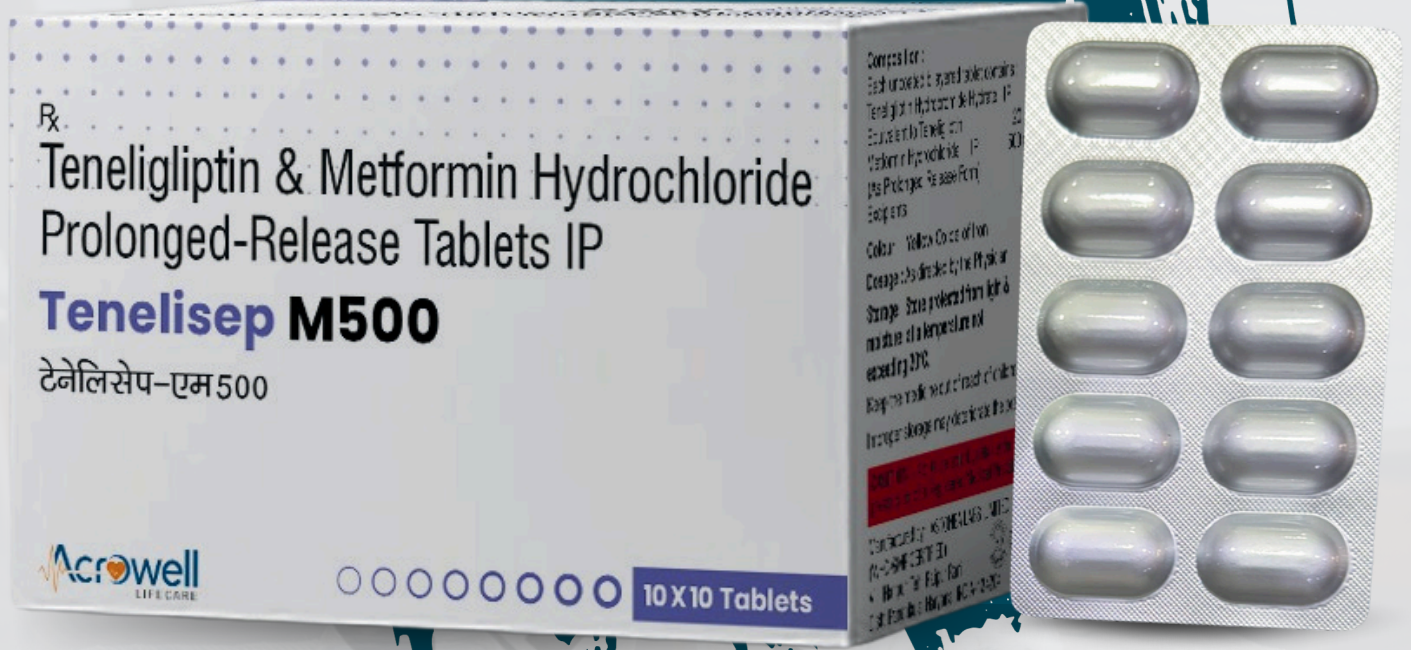

- **Rosuvastatin:** A statin that lowers "bad" cholesterol (LDL) and triglycerides, while raising "good" cholesterol (HDL).
- **Aspirin:** An antiplatelet agent that helps prevent blood clots.
- **Clopidogrel:** Another antiplatelet medication that further reduces the risk of blood clot formation.

MRP
Rs. 2280/-
PACKING
10 X 10 Alu Alu

ROSUSEP GOLD 20

TENELISEP-M 500

TENELIGLIPTIN AND METFORMIN HYDROCHLORIDE

Tenelisep-M500 combines two leading antidiabetic medications, **Teneligliptin and Metformin Hydrochloride**, in a single prolonged-release tablet for comprehensive blood sugar management in individuals with **type 2 diabetes**.

MRP
Rs. 1480/-
PACKING
10X10 Alu Alu

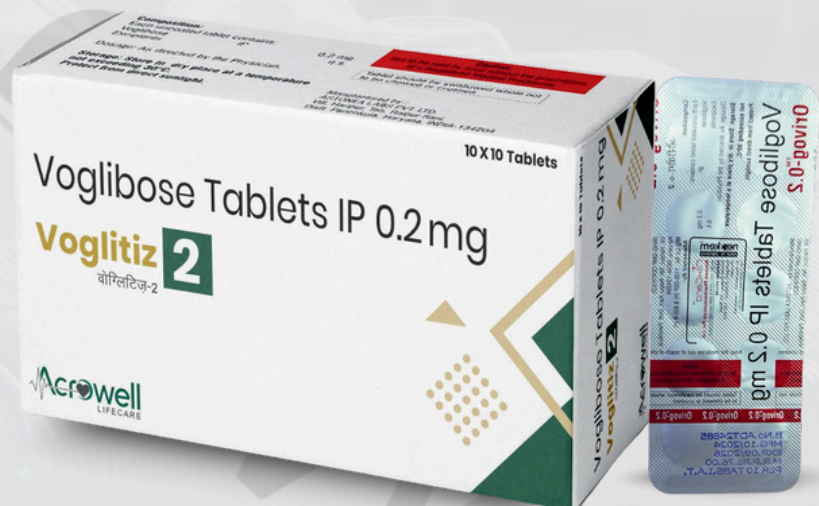

VOGLIBOSE

Voglibose works by inhibiting the action of alpha-glucosidase enzymes in the small intestine. These enzymes are responsible for breaking down carbohydrates into glucose, which is then absorbed into the bloodstream. By inhibiting their action, Voglibose slows down the absorption of glucose, preventing rapid spikes in blood sugar levels after meals.

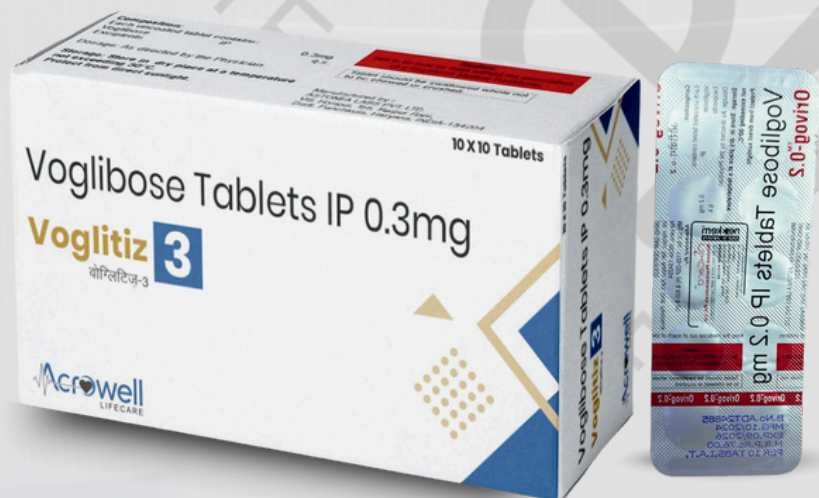

VOGLITIZ-2

MRP
Rs. 980/-
PACKING
10 X 10 Alu Alu

VOGLITIZ-3

MRP
Rs. 1380/-
PACKING
10 X 10 Alu Alu

VOGLITIZ MG1

MRP
Rs. 1980/-
PACKING
10 X 15 Blister

Voglitiz- MG1 & MG2 combines three powerful **antidiabetic medications** in a single tablet to provide **comprehensive blood sugar management** for individuals with **type 2 diabetes**

VOGLITIZ MG2

MRP
Rs. 2480/-
PACKING
10 X 15 Blister
